

Examples of what clients say about their Reconnective Healing experience

1 session alleviates back pain and sinus issues

"I first met Katrin at an event we were both volunteering at in Queenstown. Katrin explained to me her approach to holistic health and how she is using her method to help people with their health and any health issues they may have. I had never heard of this type of treatment before and was fascinated. At the time I suffered from lower back pain, and sinus issues. I decided to give Katrin a go. She started moving her hands in patterns creating a field between them, it looked rather strange but then I started to feel the force field she was creating. It was rather strange at first, but after a while I started to feel very relaxed and felt the field get stronger. This is when I realised when the field gets stronger it is fixing whatever in your body needs repairing, then the feeling subsides once it has done its job. This has done me a world of good. At the end of the treatment I felt very relaxed. **That evening I had a fantastic nights sleep and woke up with little to no back pain and my sinus felt also some relief.** That was only after 1 treatment. I will be following this treatment up with more as her healing power is just purely and truly amazing. Thank you Katrin, you are one gifted lady." **D Dolzan, Brisbane, Australia**

Remission of metastatic cancer

"Reconnective Healing has been an amazing power surge to the energy grid of my being. While I have a lot of experience with and understanding of my energy body, the three [distance] healing sessions with Katrin helped me to embody this knowledge of my true nature. **The impacts are immediate and long lasting. Reconnective Healing has been a very powerful aspect of the healing of my metastatic cancer** on all levels of my being. I strongly recommend three sessions with Katrin of Reconnective Healing to help you to deepen your connection with your own highest wisdom." **Meagan, Postgraduate Student, Canada**

Pain relief via distance in 30 minutes

"Katrin worked with me for 30 minutes to help alleviate persisting pain in my foot. I could feel the areas being worked on during the session, which amazed me, as this was a distance healing, and I wasn't quite sure what to expect. **My foot felt lighter and warmer the morning after the session, and the pain was gone!** I deliberately put weight on it and tried movements which used to be painful before. Gone. Thank you!" **Christine, Midwife, Germany**

Recovery of severe accident after 20 mins of Reconnective Healing

"Katrin was visiting Auckland and I was lucky enough to meet her and get a treatment from her. I had been involved in a large accident and my body was paying the price. I had a fractured wrist, leg and ribs as well as concussion. I can't explain the treatment in words but the body started to do amazing things - all by itself - believe me you couldn't move yourself the way I was moving.

Before the treatment I felt stuck and stiff. After the treatment it was like a weight had been lifted, I felt lighter, like I had more clarity with my brain - before the treatment I felt a little scrambled and hard to put thoughts together.

To this day [about 9 months later], I believe the treatment was the main reason my body started to realign and recover, including the amazing recovery of my arm that had surgery. I was soon back to work and feeling like I was back on track and back to myself. Amazing, just wish I had the chance to get another treatment for my horse and I before she left! Any and everyone should try it!" **Vanessa, Senior Account Manager, New Zealand**

In brief...

"Unforgettable." **Andi, Biologist, Germany**
